History

2010 July
Established the Webcoretechnix

2011
Seen success by completing 4 websites

2012
Introduced Web Hosting Services

2013
Introduced WTblog
It's hard to remember a world without blogs. Originally a sort of online journal full of mundane personal updates, web logs has morphed into an extremely powerful form of communication. Hence we started wtblog which shares the information related to technology.

2014
Developed WTKart
WTKart is an eCommerce application, which gives the extended platform for the business to sell its products on-line, it supports multiple devices also.

2015
Webcoretechnix incorporated as Webcoretechnix Software Services Pvt Ltd

2015
Launched WTWorld
WTWorld is the platform to get service by placing an order on-line from Webcoretechnix.

2015
Successfully made clients happy by designing 25+ elegant websites.

Web
Applications

WT World:

WT world is a new version of Webcoretechnix,it is the platform to get services from Webcoretechnix by placing an order online. Simply WT World is an eCommerce website developed by us in such a way to ensure the security, privacy and effectiveness of eCommerce with Wordpress, woocommerce and PHP. The user can experience intuitively designed UI, fast loading and easy checkout.Many other features like advanced scrolling, Smart search which enables user friendly experience,advanced Pin-code checking that gives an exclusive shopping experience to customers. There are lot other features available to have a look, please visit "www.webcoretechnix.com"

MG Plantations:

MG Plantations LLP has over 120 years of foothold in the coffee plantation business, the best variety of coffee beans are produced, processed and packaged from the house of MG Plantations.

For the Merchants need we have designed and developed a very unique shopping cart for coffee products to sell online very easily.To achieve the most unique design we have used the most recent technology called Wordpress along with PHP to boost the Merchant's business. We have a lot of unique features like, Pincode validation check before going to the checkout page, so that the customers feel that very fast checkout. Product gallery in a unique way.Mini shopping cart called a dropdown on the right corner of the website for fast access to the checkout and view cart pages. There are lot other features available to have a look, please visit "www.mgplantations.com"

WTKART:

Webcoretechnix has been a leader in website design, eCommerce websites for more than 5 years. From start-up businesses to corporate market leaders, our talented web designers and developers are focused on helping you be successful online, and our web design and eCommerce content management system provides everything you need to grow your business.We have many number of happy website customers. WTKart is an eCommerce website which is an unique website in the eCommerce world.This has lot of unique features where the user feels their experience with UI, speed and simplicity doing an online shopping.There are lot of unique features available in the website and to have a look, please visit "www.wtkart.com"
